Locations

1 Speak about how it is 'up to you' to take control of your career. Create some motivation copy here. 1 paragraph.

2 Provide tips on how to extend your career:

Talk to your boss. Sit down and have a very direct and pointed conversation with your boss about your future in the company.

Ask for more. Volunteering to help out other departments or teams - or simply asking for more responsibilities - increases your value within the organization.

Volunteer for boards. If you have your career set on something beyond what you are doing in your present position,

Sharpen your people skills. Strong interpersonal skills play a crucial role in gaining the respect of your boss and coworkers;

etc....

Provide no more copy than a page.
